EDUCATION

The University of Vermont

M.S. in Complex Systems and Data Science

Burlington, VT

Aug. 2019– May 2021

University of Hartford

B.A. in Psychology; Minor in Criminal Justice

Hartford, CT

Aug. 2013 – May 2016

EXPERIENCE

Vermont Center on Behavior and Health

Burlington, VT

Research Data Analyst

June 2021 – Present

- Independently developed automated clinical trial dashboards that eliminated time-consuming manual reports.
- Engineered data cleaning and transformation pipelines making trial data available for immediate use, reducing analysis delays.
- Design and administer electronic data capture (REDCap) projects for several research projects.
- Produce analytical reports using open-source code making results transparent, reproducible, and accessible.
- Design, program, and maintain secure databases for research data and PII.
- Identify inefficiencies and implement solutions using automation to improve data collection methods.
- Collaborate with statisticians to manage and analyze data for publication, focusing on quality tables and figures.
- Review study data to ensure compliance with research protocols, training staff on best practices.
- Prepare time-sensitive reports for regulatory boards and funding agencies.

Research Assistant (Promoted to Team Lead October 2018)

October 2016 – June 2021

- Implemented NIDA/FDA grant-funded study on long term exposure to low nicotine cigarettes (e.g., physiological and psychological testing, distributing study product).
- Supervised participant recruitment, and implemented procedures to improve response and retention.
- Coordinated with study principal investigators to assess clinical challenges and quickly find effective solutions.
- Trained research staff to conduct participant sessions and use specialized laboratory equipment.

ORCA Media

Montpelier, VT

Videographer and Video Editor

January 2009 – September 2016

- Filmed and edited local media events to broadcast specifications, focusing on immediate turnaround.
- Developed a lifelong love for non-profit news media.

EXAMPLE PROJECTS

Enrollment Reports | *R, R Shiny, Plotly, REDCap API, Linux CLI*

January 2020 – Present

- Create and maintain interactive data dashboards for instantaneous and longitudinal reporting.
- Interface with multiple APIs and fundamentally different data sources to retrieve information.
- Employ principles of tidy data management to create an efficient aggregation pipeline.
- Build filtering tools to allow for flexible, live data exploration, prompting new insight from advanced visualizations, summaries, and rapid analyses.

TECHNICAL SKILLS

Languages: R, Python, L^AT_EX, Markdown

Visualization Tools: R Shiny, ggplot2, Plotly

Frameworks: SQL, Microsoft Access, Linux CLI, REDCap API, Google Analytics

Developer Tools: R Studio, R Markdown, Jupyter, VS Code

Version Control: Git, GitHub

Libraries: tidyverse, randomLCA, pandas, NumPy, Matplotlib, scikit-learn

Software: Microsoft Excel, REDCap (Project Design), Final Cut Pro

AFFILIATIONS

BDI Enterprises, LLC

East Montpelier, VT

Founder, Limited Partner

Oct. 2020 – Present

- Organize educational jazz summer camps for adult musicians.
- Maintain business website, produce promotional videos and recordings.
